# PHOTOGRAPHIC "CANVAS ART"

Our Professional quality Gicle'e prints, pronounced "zhee-clay," are produced on High Quality archival print canvas. Gicle'e is an invented term from the 1990's for the process of making fine art prints from a digital source using ink-jet printing. The word "giclée", is from the French language word "gicleur" meaning "nozzle".

We print directly onto Artist Quality Archival Canvas using Professional High Resolution Canon inkjet printers. The 12-color pigmented LUCIA ink system was designed to expand the spectrum of color and it produces vibrant colors with amazing depth and contrast. The Lucia Pigment Inks are archival UV protected. Your "Canvas Art" will last with the same vibrant colors for hundreds of years!

## Make A Lasting Impression!
